Easiest schedule builder in the business!

## Drying is now truly at your finger tips!

- Use as a Stand Alone Controller
- Use in conjunction with Kiln-Dry series
- Program changes in English, not codes!
- Eliminates the need to replace pens, charts, or sensor relays
- Better resistance to electrical interference

## Dry Touch Controller

- Full Color Liquid Crystal Display Touch Screen
- All run time history displays with zoom view
- Schedule run and monitor view
- Real time trends
- Current alarm and alarm history view
- Schedule entry, open, save and download screens
- Plug and Play USB memory stick for data transfer
- Full USB printing capabilities
- Password protection with multiple user levels
- User-friendly Interface using Windows CE
- Online help for each interface screen
